## FIT+SLIM FILTERS

The Best Fit Filter for All Digital Photographers

Lens Protect, UV L390 and Circular Polarizer come with Slim Frame

For years Marumi has introduced DHG, Super DHG and EXUS series which have superior features for digital photography.

Marumi now introduces the new "Fit + Slim" line which boasts a slimmer frame and affordable price and is the proud successor of the MC and MC-UV series.

Made in Japan, as are all Marumi Filters, the new "Fit + Slim" series allows for attachment of the optical filter glass by utilizing a newly developed high pressure mounting method. All Fit + Slim filters have a front thread to attach another filter or lens cap.

**FIT+SLIM Innovations®**

- Multi Coating Glass and Satin Finished Frame for low reflections
- Light-Weight
  - MC Lens Protect: Approx. 11g
  - Circular PL: Approx. 9g

Conventional Lens Protect      FIT+SLIM MC Lens Protect

- Ultra-Slim Frame & Lens Cap Attachable
 

The new "Fit + Slim" series allows for attachment of the optical filter glass by utilizing a newly developed high pressure mounting method. All Fit + Slim filters have a front thread to attach another filter or lens cap.
- Eco-Friendly filters made from Lead-Free materials (L390)

### FIT+SLIM Specifications
