

Pana-Vue® Pana-Scan™

Portable Stand-Alone Slide and Film Scanner

Portable!
Battery Included
View Your Images
on TV!

14 MEGA
PIXELS

The Pana-Scan™ Portable Stand Alone Slide & Film Scanner enables you to quickly and easily convert your cherished slides and negatives into high resolution 14 megapixel digital images without the need to be connected to a computer. You can show all of your precious images and memories on a TV, and print, share, email, archive and store them too.

Just place your slides or film in one of the supplied holders. Insert the holder into the Pana-Scan™. View the images on the 2.4" LCD screen. Press the copy button. The images are stored on an SD memory card ready for you to use in your computer, view on a TV screen, print, email, etc.

The Pana-Scan™ Stand Alone Slide & Film Scanner is compatible with Windows © 7, 8, XP, & Vista (32 bits/ 64 bits), and MAC. It uses a USB 2.0 port on your computer for both communication and power when used as a card reader for viewing stored images. When scanning, the Pana-Scan™ Stand Alone Slide and Film Scanner operates on either the rechargeable battery (included) or the AC adapter (included).

The Pana-Vue® Pana-Scan™ Stand Alone Slide and Film Scanner comes with ArcSoft Medialmpression™ software for both MAC and PC to edit, crop and enhance your new digital images in your computer.

**Instantly Turn Your Cherished 35mm Slides & Negatives, & 110
Negatives Into Digital Images**
