samigon® Digital Shooting Necessities

Perfect lighting for shooting small items for the internet, advertising, forensics, medical, dental, collections, etc.

Go Green

Our fluorescent lighting is environmentally friendly!

Internet Photo Studio PRO™

Total lighting control when photographing small items for the internet, catalogs, brochures, industry, etc.

- Three separate lights (2 lamps, 1 base).
- Base unit: 16" x 24" illuminated area.
- 2 fully adjustable lamp units, for heights of 12" to 24". Lamps have a magnetic mount that attaches anywhere on the base for total light positioning and control. Each lamp has its own individual switch.
- Each lamp has a 26W 5000° fluorescent lamp (120W incandescent equivalent) for bright, color corrected lighting.
- Magnetically mounted fully adjustable background support allows for rapid set-up and storage.
- Special lighting effects are easily produced by placing gels on lamps or base.
- Products up to 18"-20" in height are easily accommodated.

CSA610	Internet Photo Studio PRO
CSA626	Replacement Lamp for top lights (26W 5000°K)
CTE411	Diffusion Screen for 6" Reflector

Internet Photo Studio™

Provides ideal lighting when photographing small items for the internet, catalogs, brochures, industry, etc.

- Two 8½ x 11 light units- each contains a 5000° daylight balanced fluorescent bulb. Use individually or simultaneously to provide even, shadow-free illumination.
- Two clips located on top light unit will hold background material in a natural sweep behind the item.
- Special lighting effects are easily produced by placing gel filters over the light units.
- Adjustable height (up to 10") and tilt to control glare and reflection.

Samigon®

THE UNIVERSAL FLASH THAT DOES IT ALL!
Master/Slave • Digital/Conventional • Bare Bulb/Directional

Digital Bare Bulb Slave Flash

This Samigon Digital Bare Bulb Slave Flash can **distinguish the pre-flash in a digital camera**, ignore it and then trigger itself rapidly when the second exposure flash from the camera is fired. The delay can be turned off for normal cameras. The Samigon Digital Slave Flash has a highly sensitive receptor that can **detect the master flash 50ft or more away**, and is not affected by day light from a window, or other ambient light. The built in reflector can be repositioned to **change the light illumination patterns to 45, 180 and 310 degrees**. The color temperature is 5600k daylight. The Samigon Digital Bare Bulb Flash has an output of 60W/s and can recycle in 2 seconds. It screws into a standard light bulb socket for power.

An optional synch cord is available for those who wish to fire it from the camera.

Technical Data

- **Input Voltage:** 110Vac
- **Flash Power:** 60w/s
- **Recycle Time:** 2 sec.
- **Color Temperature:** 5600K daylight
- **Flash Tube Life:** 20,000 cycles
- **Flash Duration:** 1/1000 sec.

- **Changeable Reflectors Included:** 45°,180°, 310°
- **Features:** E-27 screw base, ready light, test button, time delay for digital camera, switchable for normal camera
- Synch cord and color filters shown are available separately.

Samigon Digital BareBulb Kits

CSA141

This is an economical lighting kit for both digital cameras and film cameras. The kit contains 1-Digital BareBulb, 1-Umbrella lamp socket, 1- 24" silver/black umbrella, 1- 7ft black light stand, and it all fits in a hold-all carrybag. Because of the versatility of the Digital BareBulb, many lighting requirements can be satisfied with this simple, but sophisticated lighting system.

CSA141   Digital BareBulb Kit

CSA143

The kit contains 2-Digital BareBulbs, 2-Umbrella lamp sockets, 2- 24" silver/black umbrellas, 2- 7ft black light stand, and they still all fit in a hold-all carrybag and weight only 9lbs. (Includes a 5 color filter set FREE of charge)

CSA143   Digital BareBulb Kit (2)

samigon® CSA112 - Digital Light Kit 2

The Samigon Package includes 2 Basic Light Stands, Sockets, and Case along with 2 of the Samigon Digital Bare Bulb™ Slave/Flashes. The Samigon Digital Bare Bulb is the universal flash that does it all! It distinguishes the pre-flash in a digital camera. It has a high sensitive receptor that can detect the master flash 50ft or more away, and is not affected by day light from a window, or ambient light. The built in reflector can be repositioned to change the light illumination patterns to 45, 180 and 310 degrees. The Samigon Digital Bare Bulb has a 60W/s output, recycles in 2 seconds, is 5000°K, and comes with 1 PC Cord.

Digital 2 Lighting Kit includes:

CSA107   2 Light Stands, Sockets, and Case
CSA356   Digital Bare Bulb Slaves
CSA358   PC Cord for CSA356

Weight: 5½ oz.
**Recycling Time:** 5 -10 sec.
Includes: AC power cord, PC cord, and Built-in exposure calculator.

CSA315   AC/DC Electronic Flash

THE SHELL

An innovative attachment for on-camera flash units

It eliminates the problem of harsh and elongated shadows when moving from a horizontal to a vertical format. The shape and positioning of THE SHELL keeps the light coming from above and slightly to the side of the lens in both horizontal and vertical positions, the most flattering light for portraiture.
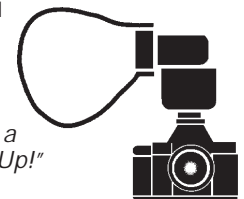

"After four months of using the Shell in a variety of situations, I give it a Thumb's Up!"
Steve Sint, Popular Photography

Five flash head positions are available using THE SHELL. Each position gives a slightly different quality of light.

NOTE: The Shell can only be used with a flash unit that has a bounce and swivel head in order to properly position The Shell as shown.

THE SHELL TSM is the same as THE SHELL but with a larger head to fit Metz CT45, CT60, Sunpack and Norman Professional Strobes.

CCH101	THE SHELL TSS

# V-H Flip Bracket

CSA841 V-H Flip Bracket System

The Samigon V-H Flip Bracket is designed for both digital and traditional 35mm SLR cameras. It allows photographers to flip their camera from **V**ertical to **H**orizontal without changing flash position. This flip motion is smooth and does not require any locking or unlocking, enabling the photographer to go from vertical to horizontal as quickly as the action dictates.

The flash is mounted on a plate attached to two telescoping sectionsextending up to 28″ high to eliminate shadow and red eye.

The Samigon V-H Flip Bracket has a specially designed platform that folds up neatly when not in use so that it fits in its own nylon pouch and occupies very little space in a camera bag. There is also a large rubber handgrip so the photographer can easily carry the camera and flash.

CSA841

CSA843 V-H Flip Bracket System Deluxe

The Deluxe Unit has all the features of the Basic Unit above, plus:

1) A lockable, tilting cross bar to center light over camera lens.
2) Accepts a photo umbrella.
3) Sliding camera mount allows the camera to be centered under the flash no matter where the tripod mount is located on the camera.

SunBlitz

BK400 Folding Slave Flash Bracket

Works with any digital camera system: single flash, multi-flash & red-eye reduction. You can use existing convention flashes with any digital camera that has a built-in flash, even those with no flash shoe.

The BK 400 automatically synchronizes with the flash system of your camera and the ergonomic contoured grip has a built-in slave trigger that converts any flash into a digital flash. Unit has a foldable bracket, for easy storage. Attaches to camera through the tripod screw.

CSB400	Folding Slave Flash Bracket	BK400

samigon® One-Touch Folding Bracket

All metal, folding 90° shoe bracket. Molded hand grip and rubberized bed over hard metal makes this bracket a sturdy, convenient device for use on 35mm cameras. Extremely portable as it folds neatly and can fit into clothes pocket. Opens up for use and snaps into position. Spring lock holds upright shoe arm tightly. To close, release spring. Cable release socket accepts most releases. Samigon blister pack. Master: 10.

|	
CSA413	One Touch Folding Bracket

samigon® Straight Flash Bracket

Strong aluminum alloy bar (8" long x 1" wide). Rubber base is 6" long to prevent camera slippage. Locking camera travels along 5 3/8" cut for centering camera. ¼ x 20 screw. Built-in flash shoe for mounting flashgun. Tripod socket permits mounting on tripod. Samigon blister pack. Master: 10.

CSA415	Straight Flash Bracket

samigon®
Right Angle Bracket

Rigid metal bracket to fit all cameras. Grip at 90°. Covered mounting surface affords good protection to camera. Excellent quality. With hand strap. Made in Germany. Samigon blister pack. Master: 5.
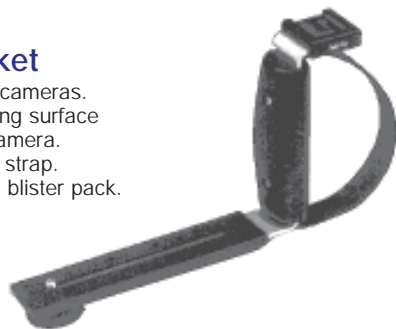

CSA822	Right Angle Bracket

CPM/Delta Flip-Flash Brackets

Ensures natural even lighting. By permitting you to keep the flash over the lens in a horizontal or vertical position it eliminates disturbing shadows and "red-eye".
The easy to hold bracket has fatigue-free, foam grip. It allows you to flip, maneuver, and hold flash units in any direction, and includes bounce flash capability.
Accepts all shoe-type or tripod flash attachments. A 2" wide bracket fits 35mm or medium format cameras. All hardware is included.
The Flip Flash I is 7" long. The Flip Flash II is 18" long and reinforced to stay where you put it.

BCP242260	Flip Flash Bracket I	46190
CCP46194	Flip Flash Bracket II	46194

samigon®
Pro Umbrella Holder

Mounts any umbrella on light stand. Accepts all shoe mounting flashguns. Tilts 180°; swivels 360°. Fits all light stands up to 5/8". Black finish. 5" high; swivels in center. Blister packed.

CSA438	Pro Umbrella Holder

CPM/Delta Universal Umbrella Bracket

For placement of umbrella/flash heads or lights. Machined from solid aircraft aluminum with a 90° tilt and 360° rotation. Fits male/female 1/4" - 20 tripod threads, male/female 3/8" and 5/8" light stands. 20 different combinations are possible. Adapters included. A flash adapter accepts all shoe-type flash attachments.

BCP242200	Universal Umbrella Bracket	46140

CPM/Delta
Flexgrip Holders

Feature double-ended, flexible stainless steel spring clips and/or rubber-coated "A" clamps. Hold diffusers, gels, gobos, and reflector cards in place. They bend, twist, and stay exactly where you want them.

CCP46114	Flexgrip 1" Clamp/Clip, 6" long	46114
CCP46116	Flexgrip 1" Clamp/Clip, 12" long	46116
CCP46118	Flexgrip 1" Dual Clamp, 8" long	46118
CCP46119	Flexgrip ½" Dual Clamp, 6" long	46119

FLOTONE®
Graduated Background Material

A synthetic PVC material with beautiful, smoothly graduated backgrounds that afford interesting lighting effects. In a few minutes, a photographer can achieve beautiful effects that would take hours with lights and single-tone backgrounds. Each sheet is individually handmade to achieve a silky matte, non-glare surface. The material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers, etc. They can be cleaned with a mild soap solution and soft cloth, making FLOTONE reusable.

Testrite Fotolite Reflectors for Quartz Lights & Photo Floods

Unusually "cool" flood and quartz lights, suitable for many photographic purposes in the studio and video use. Lights all equipped with a 10ft. 3-wire ground cord and plug, on/off switch, porcelain socket and UL approved. Heavy duty aluminum reflectors with steel shells and brackets. Lights fit onto any stand with 3/8" or 1/2" top without adapters. Swivels easily. Attractive colors as indicated on front. Bulbs not included. Barn doors and diffusion screens available for all FC models & QC12.

5" Flood, FC5

5" diameter reflector, uses 250 watt maximum, medium screw base lamps. This unit is suitable for background, hair, accent and many other uses. Baked on white finish. Produces 60° light beam. Master: 6.
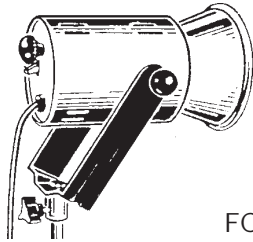

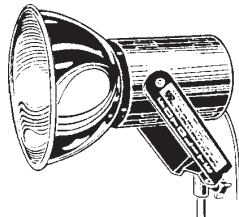

CTE250   5" Flood   FC5

Testrite 8" Flood, FC8

8" diameter reflector, uses 500 watt maximum, medium screw base lamps. Suitable for main or fill in applications and many other studio uses. Baked on yellow finish. Produces 100° light beam. Master: 3.
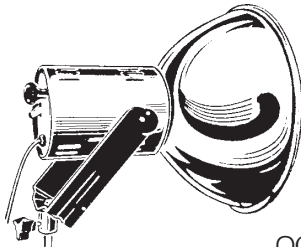

CTE252   8" Flood   FC8

12" Quartz, QC12

Quartz unit uses 600 watt maximum DYS/DYV lamps suitable for video and photographic uses. White finish. Master: 3.

CTE258   12" Quartz   QC12

Testrite High-Heat Porcelain Reflector Units

These reflector units feature porcelain sockets and wood handling knobs, listed for 500w.
The PCR/25 Kit includes a spring clamp mount and 12" reflector.
The PSR/25 Kit includes a light stand mount, zinc diecast stand adapter, and 12" reflector.

CTE272   with spring clamp mount   PCR/25

## Testrite Quartz Focusing, QF5

Uses 600 watt DYH 3200°K lamps, focuses for flood or spot. Suitable for video & photo use. Pebble finish reflector, safety cable. Black finish. Master: 6.

Quartz Non Focusing, QNF5

Same as above but non-focusing type. Black finish. Master: 6.

CTE264   Quartz Focusing   QF5
CTE266   Quartz Non Focusing   QNF5

Quartz, QC6

Quartz unit uses 600 watt DYX/DYV lamps, suitable for video and all photographic use. Permanent barn doors attached. Baked-on yellow finish. Master Pack: 6

CTE262   Quartz   QC6

Testrite Clamp-On Diffusion Screens

Made of "heat resistant plastic material" which clamps onto any metal reflector. For odd sizes, use the next larger size screen, because the steel clips may be bent to accommodate reflector (i.e. 9" reflector – order 10" diffusion screen). Ideal for portrait work and soft lighting effects. Uses 250 watt maximum photoflood lamp.

CTE417   12" clamp-on diffusion screen   DS-12
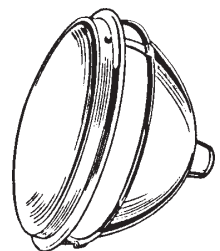

Not responsible for typographical errors. Specifications subject to change without notice.

Chelsea Reflectors

Parabolic shaped reflectors offer the most efficient light spread. Reflectors are internally finished in satin aluminum. Bulk packed for economy.

|

CCP45420	Ripstop Nylon 60" to 78", Black	45420

CPM/Delta Flexiglas Mirrors

Create beautiful portraits with reflections. Unbreakable and lightweight. Reverse is flat white. Cover with gel, shear fabric, iridescent film.

Easily cut to form any size or shape reflectors. Includes plastic carry bag with Velcro closures.
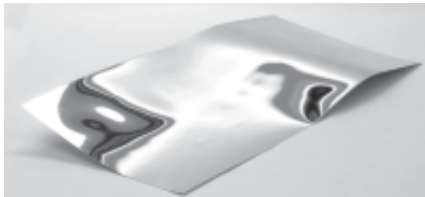

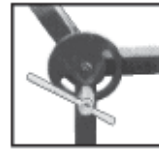

CCP45550	Flexiglas Mirror, 24" x 32"	45550
CCP45560	Flexiglas Mirror, 24" x 48"	45560

CPM/Delta The Studio

Occupies only 48" x 60" of floor space. Breaks down quickly.

Accepts all 4 ft. x 8 ft. Plexiglas or Formica (not included).

Overall height is 85" maximum.

Variable Adjustment Wheel

- Adjustable working height from 29" to 35".
- Plexiglas is held flat with stabilizing bars.
- Extended curved front allows extremely low camera angles.
- Locking back frame is continuously adjustable from flat to 90°.
- Seamless paper roll holder.
- Surface tilts up to 12° for special effects. Precision 360° level included.
- Ships UPS (assembly required).
- Optional lighting tent (CCP301020).

CCP301000	The Studio Shooting Table	40010

CPM/Delta The Mini-Studio

A product shooting table for limited spaces.

Assembles and breaks down quickly. Takes only 42" x 36" of floor space.

The overall height is 64". Width is 42".

Accepts 42" x 72" Plexiglas or Formica (not included).

- Continuously adjustable front Plexiglas curve.
- Adjustable working height from 32" to 37".
- Plexiglas is held flat with stabilizing bars.
- Surface tilts in any direction. Precision 360° level included.
- Light stand adapters on top rail for accessory booms, lights etc.
- Seamless paper roll holder.
- Ships UPS (assembly required).
- Optional lighting tent (CCP301120).

CCP301100	The Mini-Studio Shooting Table	40310

CPM/Delta Suspend-It

Non-reflective ultra fine alloy wire is used to suspend, float and animate objects, props or products. It is photographically invisible. Three sizes of wire, supporting weight from ½ lb. to 4 lbs. per wire. Will not stretch. Can be superglued, clamped, pinned or taped to most surfaces.

Each kit contains 1 roll of 20 ft. lengths each of 1, 2, and 3 mil. black alloy wire, 1 bottle of Photo-Bond adhesive, 2 match activated hot melt glue sticks, 2 black suspended ceiling clip hooks, 2 alligator clips and 12 transparent pressure sensitive flat hooks.

### Deluxe Battery Eliminator

Dual voltage international model with selector switch. Replaces battery power with standard house current. Plug with 4 universal jacks and 9V adapter clip. 110/120 or 220/240V AC, 50/60Hz input. Six output voltage settings. Power indicator light. Polarity switch. 3" long, 8oz. Master: 24.
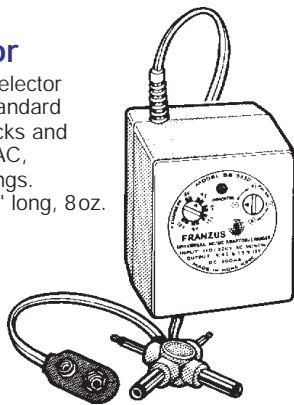

| CFR141 | Deluxe Battery Eliminator | BB-333D |

Travel Smart by Franzus
Low Wattage Converter

Converts 220/240 voltage to standard 110/120 voltage for appliances up to 50 watts such as: electric razors, radio/cassette players and contact lens sterilizers. Enables charging of video camera batteries. Thermal protective fuse. 2½" long,10oz. Travel pouch included. Master: 24.
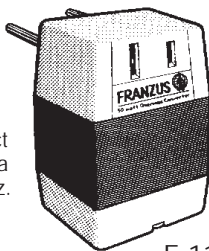

| CFR101 | Low Wattage Converter | F-11 |

Travel Smart by Franzus
Step-Up Reverse Travel Converter

Converts 110/120 voltage to 220/240 international voltage for foreign appliances up to 50 watts being used in the U.S. such as radios, cassette players, razors, calculators, and strobes. Built-in adapter pins, thermal protective fuse. 2½" long, 10oz. Travel pouch included. Master: 24.
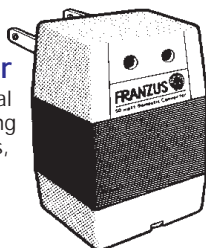

| CFR116 | Step-up Reverse Travel Converter | FR-22 |

Travel Smart by Franzus
Dual Wattage International Converter Set

Includes five polarized adapter plugs for use in most international countries, and a convenient zippered travel/storage bag.

- Converts 220V foreign electricity to 110V for use overseas on most U.S. domestic appliances rated 0-2000 watts.
- Low setting (0-25 watts) for electric shavers, radios, curling irons, etc.
- High setting (26-2000 watts) for high wattage appliances such as hair dryers, irons, garment steamers, etc.

| CFR111 | Dual Converter Travel Kit | TS-2000CK |

Travel Smart by Franzus
### International Adapter Plug Set

Weighs 3.5oz. Set includes four international plugs that will adapt to nearly all electrical wall outlets throughout the world. Travel pouch included. Master: 24.
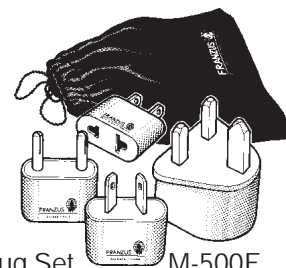

| CFR105 | International Adapter Plug Set | M-500E |

Travel Smart by Franzus
Adapter Plugs

Master quantity for items listed below is 24.

Adapter plug with two long thin pins:
For Europe, Africa, Middle East, Asia and parts of the Caribbean.

| CFR131 | Adapter Plug | NW-1C |

Adapter plug with two angled flat blades:
For Australia, New Zealand, Argentina, mainland China, and Fiji.

| CFR133 | Adapter Plug | NW-2C |

Adapter plug with two flat blade adapter pins:
For North, Central & South America, Caribbean, Philippines and Tahiti.

| CFR135 | Adapter Plug | NW-3C |

**Three-sided adapter plug with three square flat blades:**
For Great Britain, Ireland and parts of Africa.

| CFR137 | Adapter Plug | NW-135C |

Travel Smart by Franzus
All-in-One Adapter Plug

w/ Surge and EMI/RFI Protection

The four most common adapter configurations are all conveniently housed in a compact, easy-to-use single piece unit with a power light and surge protector that keeps your appliances safe from spikes in the flow of foreign electricity. Provides EMI/RFI power line protection. This amazing plug also accepts grounded and non-grounded, polarized and non-polarized plugs from 6 continents (Europe, Asia, Australia, Africa, North/South America).
Clamping voltage: 650V, Dissipation: 120 joules. Includes travel pouch.
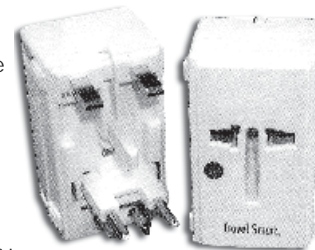

| CFR106 | All-in One Adapter Plug | TS-237AP |
