# QUICKLY & SAFELY DIGITIZES PHOTOS WITHOUT REMOVING THEM FROM ALBUMS

- **NEW** Scan Photos Directly From Photo Albums & Magazines

- Quick & Safe for old photos! No need to remove photos from albums

- View your Images on built-in 2.4" LCD Display or TV

- Save Images Directly to SD Cards\*\*

- Connect to your PC or Mac to save to your computer. Copy on CD or DVD

- Post to Social Media, Email & Print easily to share with Friends & Family

## Pana-Vue® Pana-Scan™ Portable Stand-Alone COMBO SCANNER

Prints, 35mm Slides & Negatives, 110 & 126 Negatives

Go Digital with the Pana-Scan™ Portable Stand-Alone Combo Scanner! Scan pictures right from your Photo Albums, Magazines, Slides & Negatives.

The Pana-Scan™ Portable Stand-Alone Combo Scanner allows you to quickly and easily convert your cherished photos, while still in photo albums or magazines, to digital images using patented **anti-glare technology**. The Pana-Scan™ Portable Stand-Alone Combo Scanner also converts **loose pictures** up to 4X6 inches plus **slides and negatives** into **14 megapixel digital images** without the need to be connected to a computer. You can showcase all of your precious images and memories on a TV (TV must have a compatible USB input), or email, share on social media, print and archive.

To scan a picture while in a photo album or magazine, just place the scanner on top of the desired image and when you see the image on the **2.4" LCD screen**, press the copy button. The images are then stored on an **SD memory card** ready for you to use in your computer, view on your TV, share on social media, email or archive.

# Pana-Vue® Archival Pages

**Archival quality • Acid-Free • No PVC**  
**Safe for long term storage**  
**Designed for 3-ring binders**  
**and hanging files**  
**View, organize, and preserve your**  
**negatives, slides, and prints**  
**Protect from fingerprints,**  
**scratches, and dust**

**Pana-Vue Archival Pages** are made in the USA to the same exacting standards that made Pana-Vue Slide Viewers world famous. They help photographers view, organize, preserve and protect their negatives, slides and prints.

**Pana-Vue Archival Pages** benefit from the **excellent brand recognition of Pana-Vue**, known by photographers for more than half a century.

**Pana-Vue Archival Pages** packaging has the same exciting, appealing look of the world famous Pana-Vue slide viewers. Packages are color-coded for quick identification.

**Pana-Vue Archival Print Pages** are clearly marked as **“Safe for Photographic and Digital Prints”**.

**Pana-Vue Archival Slide Pages** are **all 6 mil extra heavy weight** polypropylene.

**How to Order:**

Each Argraph Item# is one pack. i.e., EPA409 = 1 pack of 25 pages 35-6x4, EPA410 = 1 pack of 100 pages 35-6x4. Case quantities are listed for more efficient ordering. When ordering cases, order by number of packs: i.e., to order a case of 35-6x4 order 50 packs of EPA409.

# Pana-Vue®

## The World's #1 Slide Viewer

### FPA001- Pana-Vue® 1 Illuminated Slide Viewer

Tabletop convenience with 2-way base for choice of viewing angles. Light bar locks for consistent illumination. 2 1/2" square viewing screen. Brilliant 4X magnification powered by 2 "C" batteries (not included) or household current with optional transformer.

UPC# 049822720017

Works Best With AC Adapter  
We recommend use of the Pana-Vue AC Adapter (#FPA007) to eliminate battery expense and enhance your slide-viewing experience.

### FPA002- Pana-Vue® 2 Illuminated Slide Viewer

Compact viewer for tabletop or hand use. Viewing area 1 7/8" square. Brilliant 2X magnification powered by 2 "AA" batteries (not included) or household current with optional transformer.

UPC# 049822720024

### FPA005- Pana-Vue® Automatic Illuminated Slide Viewer

Stack and view up to 36 slides. Easy push-pull operation. 2 5/8" square viewing screen. Brilliant 4X magnification. Lights each slide automatically via 2 "D" batteries (not included) or household current with optional transformer.

UPC# 049822720055

### FPA007- Pana-Vue AC Adapter

New & improved A/C adapter for Pana-Vue®1, Pana-Vue®2, Pana-Vue® Auto slide viewers. Smaller & sleeker and now operates on 110-120 volts/50-60 cycle power.

U.L. Approved.

UPC# 049822720079

### FPA003- Pana-Vue® 3 Slide Viewer

Compact 2X hand-held viewer uses window or room light. Translucent back diffuses ambient light for even illumination.

Shipped in self-selling display of 12.  
UPC# 049822720031

## Innovative Magnetic Square Filter System

### QUICK & SECURE MOUNTING & SWAPPING

Our Innovative Magnetic Filter System enables you to quickly attach and detach square filters in any situation. Enables you to capture magnificent scenery changing second by second. Sophisticated design without compromise.

- Slimmer and more compact than traditional slot-in systems.
- Requires less set-up time and makes it easier to swap filters quickly and confidently.
- The strong magnets grab the filter with one touch, holding it tightly and securely, eliminating issues caused by light leaks when using traditional slot-in style square filters.
- One M100 Holder can hold up to 3 stacked filters, allowing you to layer for creative effects.
- The 100mm square glass is mounted in a sturdy metal frame with knurled edges and a wide tab at the top, allowing easy handling without getting fingerprints on the filter.

### Holder Specifications

### Ultra Slim Design

### No Vignetting with 16mm and Longer Focal Length Lenses

**82, 77 and 72 mm  
Holder Rings included**

# CREATE SPECTACULAR PHOTOS WITH GRADUATED ND FILTERS

The Magnetic Filter System is ideal for using Graduated ND filters, allowing the photographer to easily line up the ND area with the horizon line by sliding the filter up and down on its magnets.

Graduated ND Filters utilize high definition Schott B270 glass.

Double-sided multi-coating for low-reflection and easy daily cleaning.

## SOFT GND4/GND8/GND16

SOFT GND8

SOFT GND filters have a soft transition between the dark and light areas of the frame. Ideal for scenes which have no clear horizon line.

SOFT GND4

SOFT GND16

## HARD GND4/GND8/GND16

HARD GND8

HARD GND filters have a hard transition between the dark and light areas of the frame. Ideal for scenes which have a very definite horizon line.

HARD GND4

HARD GND16

## REVERSE GND4/GND8/GND16

REVERSE GND8

REVERSE GND filters have the darkest area in the middle that fade to the top. Ideal for sunrise or sunset scenes.

REVERSE GND4

REVERSE GND16

# MARUMI

Marumi is pleased to announce the launch of high density ND filters Super DHG ND 500 (2.7) & ND 1000 (3.0). Like the current DHG ND series, the neutral color balance maintains the original color of the images. In addition, our Super DHGND 500 (2.7) & ND 1000 (3.0) filters have a Water and Oil Repellent Coating to allow trouble-free shooting near water.

ND500 (2.7) reduces light amount to 1/500 which is equivalent to 9 stops,  
ND 1000 (3.0) reduces light amount to 1/1000 which is equivalent to 10 stops.

The high density ND filters enable creative photographers who want to capture long exposure daytime images.

## EXUS INNOVATIONS

### UNIQUE NEW EXUS MULTI-LAYER COATING

- ANTI-STATIC COATING**  
- Keeps dust away from lens
- WATER & OIL REPELLENT**  
- Water and Oil spots can be easily wiped away
- ANTI-REFLECTION**  
- For maximum transmission

### NEW SLIM ULTRA-LOW REFLECTION FRAME

- LIGHT-SHIELDING GROOVES**
- SATIN FINISH**
- KNURLS ON THE RING**

### EXUS LENS PROTECT

- ULTRA LOW REFLECTION**  
- Less than 0.3%  
- Blackened rim of lens minimizes internal reflections
- FLATNESS AND STRENGTH**  
- The EXUS Lens Protect filter glass assures improved flatness and strength while maintaining Marumi's exceptionally thin frame design

### EXUS CIRCULAR POLARIZER

- ULTRA LOW REFLECTION**  
- Less than 0.6%  
- Blackened rim of lens minimizes internal reflections
- HIGH TRANSMISSION POLARIZER**  
- Transmission Rate 30% higher than conventional polarizers
- TEFLON COATED MALE THREADS**  
- For smooth attaching and detaching on camera

### EXUS UV L390

- REPLICATES THE HUMAN EYE**  
- Blocks ultraviolet rays of wavelength 390nm and under to produce a clear image of distant views, replicating what the human eye sees.
- ULTRA LOW REFLECTION**  
- Less than 0.3%  
- Blackened rim of lens minimizes internal reflections
- FLATNESS AND STRENGTH**  
- The EXUS Lens Protect filter glass assures improved flatness and strength while maintaining Marumi's exceptionally thin frame design

# MARUMI Super DHG Filters

Priced to be your most Profitable Digital Camera Accessory!

The First Filters designed specifically for digital cameras and lenses

**Featuring the Digital Super Coating that gives you:**

- **Hard Protection** - Even with "heavy duty use" it guards the filter's surface from scratches.
  - **Water & Oil Repellent** - Just wipe off any water or oil spots.
  - **Antifouling** - Keeps the lens surface free of dust and dirt.
- Plus the features of Marumi's renowned DHG Filters:
- Proprietary ultra-low reflection coating increases light transmission.
  - Lens' outer rim is blackened to minimize internal reflection.
  - Satin smooth, ultra thin, matte-black metal filter frame further minimizes reflection.

# MARUMI

## DHG Filters (Digital High Grade)

Priced to be your most Profitable Digital Camera Accessory!

The First Filters designed specifically for digital cameras and lenses

### Digital Cameras Need Special Filters

Marumi DHG Filters eliminate the flare and ghosting prevalent when the CCD or CMOS chips in digital cameras convert light into electrical signals.

### UV -L390 Filters

Block UV rays with wavelength of 390nm or less. Produce natural, clear images with sharp contrast without affecting the visible light. Available in both **DHG**, and **SUPER DHG** versions.

- Marumi's Proprietary ultra-low reflection coating increases light transmission.

- Outer rim of lens is blackened to minimize internal reflection.

- Satin smooth, ultra thin, matte-black metal filter frame further minimizes reflection.

# MARUMI

# FIT+SLIM®

Marumi's new FIT + SLIM digital camera filters feature exceptional performance and functions that meet and exceed the demands of the latest digital SLR cameras, all within a new, slimmer profile.

## FIT+SLIM Innovations®

- o Multi Coating Glass and Satin Finished Frame for low reflections

- o Light-Weight
  - MC Lens Protect: Approx. 11g
  - Circular PL: Approx. 20g

- o Ultra-Slim Frame & Lens Cap Attachable

Achieves both slim frame and the capability of lens cap attachment by adopting newly developed high pressure mounting method.

- o Eco-friendly Filters Made From Lead-Free Materials (L390)

### FIT + SLIM LENS PROTECT

- Protects lens from dust & scratches
- Multi Coating
- Ultra Slim Frame
- Lens Cap Attachable

### FIT + SLIM UV CUT L390

- Cuts UV Rays
- Protects lens from dust & scratches
- Multi Coating
- Ultra Slim Frame
- Lens Cap Attachable

### FIT + SLIM CIRCULAR POLARIZER

- Increases color saturation
- Reduces reflections
- Ultra Slim Frame
- Lens Cap Attachable

# DHG Achromat Macro Lens

This breakthrough technology developed by Marumi makes DHG Achromat filters ideal for macro photography. Achromat Macro filters are designed to shorten the focal length of your lens and to enhance its macro mode capabilities with outstanding clarity. Other filters can provide simple magnification. Only Marumi Digital High Grade (DHG) Achromat Macro filters provide the edge-to-edge sharpness, detail, and clarity that professionals demand.

Marumi Digital High Grade (DHG) Achromat Macro Lenses are available in 2 magnifications: 330 (+3) and 200 (+5). Both produce outstanding edge-to-edge clarity that is unsurpassed by any other filter product. When ordering use AMD before size code. ie: AMD + AC349, AC352, AC549, etc.

**FLOTONE** graduated background is a beautiful synthetic PVC material for professional photographers, art directors, graphic designers, etc. These smoothly graduated backgrounds afford interesting lighting effects without losing valuable time setting up and doing trial shots.

**FLOTONE** allows the photographer to achieve, in just seconds, beautiful effects that would take hours with lights and single-tone backgrounds. Each **FLOTONE** sheet is individually hand-made to achieve a silky matte, non-glare surface. The synthetic PVC material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers, etc. They can be cleaned with a mild soap solution and soft cloth, making **FLOTONE** reusable.

Perspective Grids	43" x 63"

# QPCARD

THE KEY TO COLOR

## The easiest, most cost-effective aid for balancing digital images

Even with correctly set and calibrated computers, software and monitors, you must balance a digital image against the monitor. A guaranteed neutral grey surface in the image simplifies balancing. It is complicated to carry around a cumbersome grey card and position at a suitable place in the subject. In addition, the grey card becomes thumbred, dirty and faded from the light, so that after a while it is no longer neutral grey. **QPCard** solves these problems. It comes in a pack of 3 cards in a protective bag that fits easily into camera case or pocket. The cards have adhesive on the back so that they can be attached to virtually any surface. The grey surface is completely neutral and reflects 18% light. A white and black patch can be used for contrast adjustment. In addition, the card can be used as a dimensional reference.

### Quick Start Instructions

1. Place QPCard on the object and expose a reference image.
2. Expose the remaining images under the same light conditions without QPCard.
3. Use reference image for color balancing in Photoshop. Apply to all images taken in same light.

QPCard does not require any special software in the computer. It can be used with standard software such as Adobe Photoshop or with the photography software that comes with professional digital cameras. Most scanner software has a function for grey balancing that works together with QPCard.

# QPCARD

THE KEY TO COLOR

## 4-Step Grey Scale Card

The QPCard 4-Step Grey Scale has been developed with the help of experienced users of the original QPCard 101. The QPCard 4-Step Grey Scale is much bigger, 9.6" x 6.7", than the original QPCard and made of thick cardboard. It has four fields, for better distribution along the grey scale. Furthermore it has replaced the

black with a dark grey field. Black is difficult to adjust anyway, so four fields not too close to the end points of the tonal scale are much more effective. These four fields work exceptionally well with Adobe Photoshop's ability to correct the balance using four points under "Curves".

# QPCARD

THE KEY TO COLOR

## Qp Card 202 & FREE Qp Calibration Software for Raw Images

Getting accurate natural colors from any digital camera with RAW option has been an elusive goal for digital photographers. It can be a challenge to get photographs with correct hue; where red is red, green is green and blue is blue – and to make photographs with sufficient saturation in all channels. Believing that this is the optimum starting point for efficient picture editing in RGB, QP has been at the forefront of addressing this challenge. QP's second goal is to get the correct colors in a fast, accurate, uncomplicated, and inexpensive way.

QP has addressed these goals with the new QPCard 202 and QPcalibrator software, which perform color correction using color management and profiling at the first accessible stage in the digital image workflow – the RAW image. In order to accurately monitor each camera's color property, QP has designed a new high quality, color target with modern camera sensors in mind. With only 35 carefully selected and individually manufactured color patches, QPCard 202 can meticulously pin-point color behavior of almost any camera in any light.

QPcalibrator software compares camera performance with the target colors and creates instructions for the profile on how to "move" small segments of colors (almost 1300) into correct position in a three dimensional color space. Color saturation is controlled in two stages: primary control in the matrix, followed by "soft clipping" in the lookup table. It keeps track of color saturation making sure no color channel is over-saturated with blocked or "flat" colors as a result.

# QPCARD

THE KEY TO COLOR

## Qp Card 203 & FREE Qp Calibration Software for Raw Images

The **QPCard 203**, in conjunction with the free program **QPcalibration**, takes picture color control one step further. You now have real color management of (almost) any camera in (almost) any light. Take a picture of **QPCard 203** with the camera set in the raw mode. Open the picture in the free QPcalibration software. Generate a profile by clicking "Calculate", give it a name and "Save".

The profile will automatically be saved in the correct folder and can immediately be used in Adobe Camera Raw. Open Adobe Photoshop or Lightroom. The new profile will appear in the "Camera Calibration" option. Apply the profile to pictures taken with the same camera in similar lighting conditions. Generate more profiles for other cameras and lights. Daylight, tungsten, fluorescent, flash, halogen, LED, etc. A custom camera and light profile can be created in less than 10 seconds. The **QPCard 203** makes all your cameras interpret colors correctly in any light. **QPCard 203** is small enough to fit in a shirt pocket and sturdy enough to be left in a camera bag. When closed it is 3 3/4" x 5 1/4".

**QPCard 203** has a neutral 18% gray card on the left side and a color card with 35 swatches on the right. The gray card is perfect for custom white balance setting on location or for grey balancing in Adobe Camera Raw.

The **QPCard 203** is very convenient to take on location, and extremely versatile, and the color swatches are less sensitive to reflections than other color charts.

# FUJIFILM GFX-SERIES

## GFX-50S

The FUJIFILM GFX 50S medium format mirrorless digital camera adopts a 43.8x 32.9mm medium format (FUJIFILM G Format) sensor with 51.4 MP. Featuring premium design and excellent operability stemming from the highly reputable digital camera X Series system and the accumulation of image design technology from over 80 years of experience, the GFX 50S achieves the highest ever image quality from Fujifilm.

Released with the APS-C sensor in 2011, the X Series has earned high praise from professional photographers and photography enthusiasts alike, due to its excellent image quality and mobility across a wide range of genres including landscapes, snaps, portraits, and sports photos. On the other hand, there were also many photographers craving for the release of a camera equipped with a large-size sensor with an even higher number of effective pixels, which could be used mainly in the fields of commercial and studio portrait photography, while at the same time keeping the excellent color reproduction of the X Series intact. In response to those voices, Fujifilm developed the FUJIFILM GFX 50S and the FUJINON GF Lenses series as a system for photographers that require even higher image quality than can be covered by the current X-Series lineup.

- Equipped with a 43.8mm x 32.9mm, 51.4 MP CMOS sensor, boasting approx. 1.7x the area of full frame sensors
- Equipped with X Processor Pro image processing engine
- 3.69M-dot organic EL electronic viewfinder & 2.36M-dot touchscreen LCD back panel
- Compact & lightweight body with high rigidity due to the adoption of magnesium alloy
- Newly developed large diameter G Mount with excellent robustness and durability
- Newly developed ultra-high resolution FUJINON GF Lenses

## X-T4

**NEW**

The Fuji X-T4 Mirrorless Digital Cameras & Kits chase your creativity as far as it wants to go with FUJIFILM X-T4. This powerful image-making tool offers professional photo and video functionality that can be quickly and easily accessed at the flick of a switch. X-T4 offers a 26.1MP X-Trans CMOS 4 sensor, X-Processor 4 quad-core imaging engine, five-axis In-Body Image Stabilization, autofocus sensitivity down to -6EV, and Full HD/240p super slow-motion video recording. It also provides improved AF tracking performance and enhanced battery life compared to X-T3, along with a new mechanical shutter that is capable of making images at 15 frames per second and 300,000 actuations. High-resolution movie footage can be made at DCI 4K/60p in 10-bit color, while the addition of a newly designed optional Vertical Battery Grip uses two extra batteries to provide nearly 2,000 still frames before needing to recharge. X-T4 is the ultimate camera for hybrid image makers who want the versatility to make the most of their creativity.

- 24.3MP X-Trans™ CMOS III, an APS-C sensor with no low-pass filter
- X-Processor Pro high-speed image processing engine
- Enhanced response performance and improved AF performance from previous X100 models, with six AF modes to be selected
  - o The number of focusing points has been expanded from 49 in previous models to 91 (up to 325 points).
  - o Approx. 40% of the imaging area (center area containing 49 focusing points) is covered with phase detection AF pixels to form a fast and precise phase detection AF area that can be used in a variety of scenes.
- Evolution of the Advanced Hybrid Viewfinder

- o You can now change the magnification of the electronic rangefinder, shown in a small window as EVF at the bottom right corner of the optical viewfinder, for acute accuracy. The Real Time Parallax Correction function is applied to the focus area in addition to the guide frame to enable assured framing and focusing in the Manual Focus mode.
- Intuitive and practical operability
  - o New features in the X100F include the Built-In ISO Dial, incorporated into the Shutter Speed Dial, the Focus Lever, and the “C” position for enabling ±5 stop exposure compensation. Most of the buttons and dials are concentrated on the right-hand side to enable single-handed operation.

## X-T3

Launching X Series mirrorless digital cameras into its fourth generation, the FUJIFILM X-T3 features an all-new back-illuminated 26.1MP X-Trans CMOS 4 sensor and X-Processor 4 processor. Delivering superb image quality, dramatic AF performance, excellent tracking performance of fast-moving subjects and blackout-free burst shooting, the X-T3 is also the first APS-C mirrorless camera capable of 4K/60P 10bit recording to meet the needs of professional videographers.

- 26.1MP X-Trans CMOS 4 Sensor with primary color filter
- X-Processor 4 Image Processing Engine
- High-precision, 0.5-inch, 3.69 million dot OLED color viewfinder
- Robust magnesium alloy body
- Continuous Shooting
- Movie Recording (using a card with the UHS Speed Class 3 or higher)
- LCD Monitor
- Bluetooth® Ver. 4.2 low energy technology
- 16 Film Simulation Modes

# FUJIFILM X-SERIES

## X-100V

The FUJIFILM X100V combines the quality and control of a professional camera with the size and simplicity of a compact one, for outstanding photography every day. A new 23mmF2 fixed lens perfectly complements the cutting-edge 26.1MP X-Trans CMOS 4 back-side illuminated sensor at its heart. The X100V also features the powerful X-Processor 4 quad-core imaging engine, which drives superfast, precision autofocus right down to -5EV, while an Advanced Hybrid Viewfinder ensures photographers are always ready for the perfect moment. With the addition of a tilting LCD touchscreen, optional weather sealing when you attach the optional protection filter and the optional adapter ring (both sold separately) and a great design, you have the perfect recipe for beautiful still images and spectacular 4K video, whatever the situation.

## X-Pro3

A professional camera for photographers on the move who want top-level features, a lowprofile, and reliable durability. Whether you are in the field, on the streets or in the studio, X-Pro3 reconnects you with your subject. Its revolutionary hybrid OVF/EVF and hidden LCD touchscreen keep you in the moment, while the state-of-the-art imaging sensor and incredible 4K video ensure spectacular results. X-Pro3 is a true photographer's tool that combines all the feeling of film with all the quality of digital.

## X-S10

A portable, intuitive camera, capable of outstanding performance. X-S10 offers renowned FUJIFILM design, engineering, and color science in an accessible package. The newly created body features a deep grip for absolute security when making images handheld, even with larger lenses, and an intuitive, simple control dial for effortless operation. It is also packed with state-of-the-art technology, including five-axis in-body image stabilization to enable smooth footage and super-sharp stills, a 180° vari-angle LCD touchscreen that covers even the most awkward angles, and superfast 0.02 second auto focus that is accurate down to -6EV. When combined with the outstanding 26.1 megapixel, back-side illuminated X-Trans CMOS 4 sensor and quad-core X-Processor 4 CPU, it is possible to achieve stunning photography and cinema-quality video, while harnessing the unique beauty arising from Fujifilm's offered 18 Film Simulation modes.

# FUJIFILM Binoculars

## Techno-Stabi™

### Key Features

- FUJINON'S unique EBC coating allows a great deal of light to pass through the binocular. Great for low light performance.
- $\pm 5^\circ$  (14x40 model) and  $\pm 3^\circ$  (12x32 model) of vertical stabilization allows you to use it on land, sea, or air.
- Designed with water and fog proof seals (Nitrogen Purged). O ring sealed.
- Rubber armored body allows user to have a firm grip.
- Comes with a flotation strap for use on or around the water.
- Phase-coated prisms give a sharp, high contrast image.
- Automatic shut-off feature to help improve battery life.
- Comes with a mil spec hard case for secure storage when not in use (14x40 model only).
- Techno-Stabi binoculars feature Fujifilm's 1 Year Limited Warranty. The warranty does not cover accessories, battery case and rubber.

## Mariner WPC XL

### Key Features

- Fully multi-coated optics ensures maximum light transmission.
- Cost effective to fit any budget.
- Designed with waterproof seals – O ring sealed. And they float when used with provided flotation strap.
- Both models offer long eye relief (18mm) and provide non-vignetting images. Great for people that wear eyeglasses.
- Polycarbonate housing make it light weight (under 2lbs).
- World Compass is equipped with an LED light which allows you to see the compass even under low light conditions.
- Mariner series binoculars feature Fujifilm's 1 Year Limited Warranty. The warranty does not cover accessories or rubber.

## Polaris FMTRC-SX

### Key Features

- FUJINON'S unique EBC coating allows 95% of light to pass through the binocular. Great for low light performance.
- Field flattener lens provides sharp images from edge to edge with no distortion.
- Designed with waterproof and fogproof seals (Nitrogen Purged). O ring sealed.
- Rubber armored body allows user to have a firm grip, even with one hand.
- Long eye relief (23mm) is great for those who wear glasses (7x50 & 10x70 models only).
- 7x50 FMTRC-SX model is equipped with a worldwide compass.
- Mil spec shock and impact resistant body construction.
- Polaris binoculars come with Fujifilm's Limited Lifetime Warranty. The warranty does not cover accessories or rubber.

## KF 8x42 H

### Key Features

- Small compact roof prism body structure allows for easy carrying and transporting.
- Fully multi-coated optics ensures maximum light transmission (applies to 42mm & 32mm models only).
- Phase correction coated prisms enhance resolution and contrast (applies to 32mm & 42mm models only).
- Precise center focus feature makes it possible to bring details into sharp focus with just a movement of the finger.
- Impact resistant high-quality aluminum housing.
- Designed with waterproof seals – O ring sealed.
- KF series binoculars feature Fujifilm's Limited Lifetime Warranty. The warranty does not cover accessories or rubber.

# FUJIFILM *FinePix*

**XP140**

The FINEPIX XP140 is the latest model in the XP series rugged camera category. Waterproof to 82 ft., shockproof up to 5.9 ft, freeze proof to 14° F and dustproof ---this camera is ideal for all your outdoor adventures! In addition to these four rugged features, the FINEPIX XP140 includes new and exciting features including Smile Shutter, Bluetooth® Capability & 4K/15p video.

**Features**

- ISO 100-12800, allowing for lots of light and extremely fast shutter speed.
- Waterproof to 82 ft. – Ideal for deep underwater adventures.
- Smile Shutter - The new feature automatically takes the photo. When you select "Smile Shutter" you will no longer miss the perfect photo.
- 4K/15P Video – Capture the world around you in ultra-high definition with the 4K movie capability at 15 frames per second
- Bluetooth Capability - The newly installed Bluetooth low energy technology allows automatic and instant image transfer to smartphones and tablet devices by easy pairing registration. The technology also syncs the time and location information from your device and attaches it to your images.

## mini liplay

After the launches of the INSTAX SQUARE SQ10 and the INSTAX SQUARE SQ20, we are pleased to announce that FUJIFILM Corporation has expanded its hybrid technology to the INSTAX Mini Series. INSTAX Mini LiPlay is the first hybrid instant camera within the INSTAX Mini lineup, combining instant print and digital technologies. The INSTAX Mini LiPlay camera has some new and attractive features never before seen in the INSTAX Mini camera lineup. It is available in three colors: Elegant Black, Blush Gold and Stone White.

Item#	Description	MSRP	Net

## SQUARE SQ 6

Since Square film was well accepted in the market with the launch of the INSTAX SQUARE SQ10, the INSTAX SQUARE SQ6 was developed. The INSTAX SQUARE SQ6 is the first analog instant camera within the INSTAX SQUARE lineup. It is the perfect tool for users who want to be creative and use instant photos to express themselves and their everyday moments on a square film format.

## SQUARE SQ 20

As a hybrid instant camera, equipped with a digital image sensor and digital image processing technology, the SQ20 offers users the ability to select their favorite images to print. Users can even edit and apply various filters. Using the 1:1 aspect ratio, INSTAX SQUARE film allows for more capture of the scene in a single photo, delivering exceptional image quality with numerous artistic expressions. For the first time in INSTAX instant photography, the SQ20 introduces the motion mode. Utilizing a dial on the back of the camera, users can take a video of up to 15 seconds and choose the best moment of a moving subject to print, which can often times be difficult to capture.

Item#	Description	MSRP	Net

# Share Printer 3

# FUJIFILM instax

Adding to our line of square format devices, the new SP-3 has the ability to print photos quickly from smartphones, easily and in high quality as previous models (such as the SP-2), but can now, instead, print on INSTAX SQUARE Film, the hugely popular new square format that was added to the INSTAX film range this past May. With a 1:1 aspect ratio, the structure of square photos is an effective artistic style. A long-standing favorite among photography lovers, it is now also popular among smartphone users and is the standard format on social media such as Instagram. Recent years have seen a rise in the sharing of square photos on social media, with users putting great care into every step from composition to editing and processing. With the SP-3, users can now print out those special photos as a gift or to decorate their room.

# INSTAGRIP sling strap

Instagrip Sling Strap gives you quick access to your camera for almost instantaneous shooting with comfortable padding on the shoulder in a sling position.

Your camera is attached utilizing the tripod screw at the base of the camera body and is secured using the rotating aluminum knob. Once attached, the camera hangs securely at your side, ready to be raised instantly to shoot up position.

Adjustable straps and swivel buckle makes the strap suitable for most body types. Detachable dual lock buckle enables the camera to be attached and detached from the main sling strap easily.

Unique and Innovative! Leather hand grip holds camera snugly in the palm of your hand for quick shooting!

Use as a grip, or a camera stand, and also

allows you to put your camera on a tripod without taking the base plate off the camera!

Camera stand folds neatly out of the way against the camera base when not in use. A shoulder strap can also be attached to the other side of the camera (like Camera Strap Buddy) to allow you to carry your camera vertically against your body.

3-Point attachment wraps around thumb for extra security

BASE FOLDS AND UNFOLDS TO

USE AS A CAMERA STAND

## Camera Strap Buddy

Reduce unwanted camera swing and bounce. The Camera Strap Buddy attaches to one end of your camera strap, and screws into tripod mounting hole on the base of the camera. The other end of the strap attaches to a camera strap lug. The Strap Buddy changes the camera's direction so the lens will point downward. This orientation keeps the camera flat against your side, both for comfort and reduces camera swings and bounces.

## 88015 GREAT SMOKY MOUNTAIN

**The Most Comfortable Photo-Backpack ever created and... it's pretty clever too!**

**Backpack Technology:** Aluminum frame for extra support and comfort. Well padded adjustable shoulder straps, complemented by an extremely comfortable neoprene waist-belt with compression straps and quick release buckle.

**Work Surface:** The top section pulls away from the bottom section in reverse fashion, creating a useful, flat work surface, with water resistant material.

**Top Hiking Section:** 7"H x 10"W x 6¼"D. Plenty of room for hiking gear. Removable pocket and a mesh pocket.

**Bottom Photo Section:** 8"H x 10"W x 7½"D. One lens cradle and 5 adjustable dividers provide room for one SLR body with a lens attached, plus an additional 4 to 5 photo accessories.

**Unique Tripod Carrying System:** Slide tripod through loop below backpack. Pull draw-string cords on both sides to secure tripod.

Item# BMR88015

Created by one of Colorado's best backpack designers first, with M-ROCK's unique camera bag features implemented second, resulting in the most comfortable and functional backpack in the photographic industry!

## Specialty Frames

### Foldable Frame Series

A unique concept. The double frames can be mailed or travel in a purse or suitcase because an invisible hinge allows the frames to fold flat. Perfect as an announcement, premium, or as a double frame. The 4 x 6 size also holds 3½ x 5 prints. Order by piece/multiples of 12.

# Saflin<sup>®</sup> Acrylic Frames A EXCLUSIVE

## “The Best Quality at the Best Price”

### What makes Saflin Acrylics Better?

- We use only top-quality, crystal-clear, smooth acrylic.
- Full back prevents picture curl.
- Fired edges create a smooth, clean, look & feel.
- Longer base prevents fall-down.

### Choose from:

- Saflin-quality, full 2mm thick acrylic. It is superior to “standard issue” frames.
- Deluxe 3mm thick acrylic - the “ultimate” bent acrylic... thicker and heavier than even our 2mm frames. Individually polybagged • Promo priced when ordered in multiples of the box quantity per item#.

# Saflin® Specialty Frames

All specialty acrylics incorporate the same high standards of our bent acrylic line: Crystal Clear Acrylic, Full Back and Fired Edges. Our unique, borderless designs display photographs in their truest colors and compliment precious memories.

**Individually polybagged. Promo priced when ordered in multiples of the box quantity per item#.**

## Clip Frames

## Box Frames

Clear display frames are 1 1/4" depth. This allows photo to stand freely. Frames can be hung vertically or horizontally.

## Magnetic Photo Frames

Perfect for refrigerators, filing cabinets and other magnetic surfaces. Extra magnetic strips prevent frames from slipping.

## Key Chains

Great impulse item.

## Triangular Pen/Pencil Holders

3mm acrylic. Display 3 vertical photographs. 2 photo sizes available: 2 1/2 x 3 1/2", 3 1/2 x 5".

## Clear Easel Frames

Display your photos on our one-piece easel!

A sturdy screw holds the adjustable leg in place.

## Acrylic Pedestal Frames

Pedestal Frames are available in 3 1/2 x 5, 4 x 6, 5 x 7 single horizontal & vertical & 2 1/2 x 3 1/2 double & triple styles.

Order by piece/multiples of 12

Do you love taking photos of friends and family but always find yourself on the wrong side of the camera, left out of the picture? Are you getting tired of stretching your arm out to get yourself in the picture, then struggling to frame it just right? Do you hate carrying a big tripod on trips, even though you need one to get just the right shot?

**The Bottle-Top Pod is for you!**

- ▶ Stop stretching your arm out to get yourself in the picture!
- ▶ Universal camera mount fits any camera with a tripod socket.
- ▶ Great for group photos, self-portraits, night or low-light shots.

**TAKE ANYWHERE:**  
*Beach, Hiking, Parties, Restaurants, Bars, Biking, Amusement Parks, You name it!*

- ▶ Instantly turn standard water or soda bottle into a camera tripod.
- ▶ Carry everywhere in your pocket, purse, camera bag, etc. Weighs just 1 ounce.

**DuraCraft®**

**Dry Mounting Tissue**

**Safe • Permanent**  
**Bonds at Low Temperatures**  
**For Both RC & Fiber-Base Photos**  
**Safe for Inkjet Prints**

Permanent, porous, dry-mounting adhesive tissue with breathability and low temperature bonding (178°F). Perfect for all around use. Bonds RC & fiber-base photos, glossy posters, a wide range of papers, and other nonporous or high moisture content materials to virtually any mounting board.

**2" Neoprene Camera Straps**

These Neoprene Straps are very soft and elastic, slip proof backing helps prevent the strap from falling off your shoulder.

The straps are extremely comfortable- the elasticity absorbs the weight of heavy cameras.

**Pg.34**

**INSTAGRIP sling strap**

Instagrip Sling Strap gives you quick access to your camera for almost instantaneous shooting with comfortable padding on the shoulder in a sling position.

**Pg.34**

**Transcend Pg. 36**  
**CAMERA, COMPUTER & MOBILE MEMORY ACCESSORIES**

**DURACELL® COPPERTOP**  
**"Trusted Everywhere"**

**Pg.35**

**Print File®**  
**ARCHIVAL PRESERVERS**

**PROMO EXTRA 5%**

On full case quantities of pages take an EXTRA 5% OFF Dealer Net.

**Pg.39**

**Pg.48**

**FUJIFILM instax**  
**Mini Cameras, Film & Printers**  
**Pg. 31-33**
