SIRUI 3T-35 PROFESSIONAL TRIPOD KITS

Never Be Without a Tripod Again

3T-35

Never be without a tripod again. A nice idea, but no one has been able to build a high quality tripod that can really say that. Until today.

The **SIRUI 3T-35** is an ultra-compact, rugged, portable and flexible table top tripod...and much more! It can easily fit in a camera bag, backpack or back pocket. And the belt hook keeps it ready at any time! It's made of forged aircraft grade aluminum alloy, so it's rugged and built to last!

Its **large, stable support legs** can hold digital and video cameras **weighing up to 8.8 lb (4 kg)**. And the two-section center column can **extend to 13.5 in (34.4cm)**!

When you can't see over the crowd, fold down the support legs for added reach. And if you need to do a self-portrait, it couldn't be easier. The **legs fold up for storage** and provide an excellent grip for shooting photos or videos.

The excellent ball head comes with a quick release plate and, when you remove the center column, can be placed directly onto the support legs for low angle shooting and maximum stability. And you can lean against a tree or put it on a ledge for unique perspectives.
