

SIRUI ET SERIES PROFESSIONAL TRIPOD KITS

ET Series

The ideal combination for the budget conscious photographer

ET-1004+E-10

ET-2204+E-20

If you're a photographer on a budget, but refuse to compromise on quality, the new SIRUI ET Series tripod kit is your ideal choice. Built for travel, the ET Series offers **full size tripods that fold compactly for easy storage and transport** (fits into most backpacks or carry-on luggage).

The tripod's spider - the heart of any tripod - is forged from aircraft grade aluminum alloy and the legs are available in economical aluminum or lightweight, 8-layer carbon fiber, for maximum performance, stability and long life. The matching E-10/20 Ball Head is included to provide full creative control with a **separate panning and main locking knob and useful bubble level**. Easily create panoramas with the exposed calibration scale.

Thanks to the use of Magnesium leg clamps (for added strength) and SIRUI's superior design, the flip locks provide a solid grip, enhanced stability and reliable performance.

SIRUI ET Series tripod have a uniquely designed leg mechanism that lets you to **flip the legs up 180°**. This allows the tripod to be **folded significantly smaller** than comparably sized tripods with conventional leg designs. And you can keep a ball head on the tripod and it will still fit in the compact case.

When you want to get low to the ground or shoot at unusual angles, you can invert the center column and shoot from underneath the tripod or remove the center column and replace it with the **short center column (included)**. And by adjusting the legs to any of the 3 leg angle positions, you can shoot on uneven terrain with ease.

Features:

ET Series Tripods

1. Flip leg locks for fast setup and breakdown.
2. Full-sized, but folds down small.
3. Legs fold up 180° for extra compactness.
4. The center column can be inverted for low angle shots.
5. For speed and convenience, each leg has an automatic leg angle lock mechanism.
6. Short center column is supplied for low angle or macro shooting.
7. 3 position leg angle for uneven terrain.
8. Your choice of economical Aluminum Alloy (ET-1004/ET-2004) or lightweight 8-layer 100% Carbon Fiber (ET-1204/ET-2204).
9. ET-2004/2204 have retractable spikes for outdoor photography.

Legs fold 180° for easier travel

Flip leg locks for easy setup & breakdown

What's included:
Tripod, ball head, TY-50E quick release plate, short center column, custom padded case, shoulder strap, tools, instruction manual, warranty card

E Series Ball Heads

1. Separate adjustment knobs for panning and main locking for maximum control and flexibility.
2. Bubble level for fast horizontal alignment.
3. SIRUI's unique locking mechanism provides unequalled locking force even with loads up to 17.6lb (8kg) for the E-10 Ball Head and 26.5lb (12kg) for the E-20 Ball Head!
4. Rugged metal locking knob offers a wear-resistant surface, solid grip.
5. Precision built to provide smooth, vibration-free movement.
