Argraph Offers Pixel Battery Grips for Latest DSLR Cameras

Carlstadt, NJ – Argraph Corporation, the exclusive distributor of Pixel Professional Photo Accessories in the U.S., is exhibiting the latest camera battery grips for today's most popular Canon and Nikon DSLR Cameras.

Built to uncompromising standards, the Pixel "Vertax" series of battery grips provide impressive control and have the features you need – including a vertical shutter release, shutter and aperture control wheels (Nikon models, single wheel for Canon), exposure lock, multi-function control buttons and more. Plus, they accept AA batteries (alkaline or rechargeable) or camera batteries, for added shooting capacity.

The Vertax Battery Grips are made from the same raw materials that are used on the cameras and provide excellent dust and moisture seals. The rubber hand grip provides slip-free handling and control.

In addition to battery grips for current cameras, Pixel has introduced battery grips for these newest models: Nikon D-600 and D-800; Canon 5D Mark III and 6D.

All Pixel products come with a 2+1 year U.S. warranty. Pixel Photographic Accessories are distributed in the U.S exclusively by Argraph Corporation and are available from photo retailers nationwide. For more details on Pixel products, please go to www.argraph.com or call us at 201.939.7722.
